

## Discipline

The following disciplinary procedures will apply to all players in the Club:-

Any player being sent off in a match will continue to receive an automatic one match (the next match) suspension.

In addition:-

Players accumulating three cautions will receive a one match (the next match) suspension.

Players receiving a caution and then being ordered off the field with a straight red card will receive a one match (the next match) suspension, with the caution being carried forward. Being dismissed for two cautions in the same match will receive a one match (the next match) suspension with no carry forward.

Players who, having served a one match suspension, then receive a second one match suspension, (for yellow or red card offences) will also be automatically suspended for the following match i.e. two match suspension.

Any player exceeding two suspensions will be asked to appear before a Disciplinary Sub-Committee and may, as a maximum penalty, be subject to exclusion from the Club.

The accumulation of offences is not confined to any one competition, but applies over the whole of the Club Season.
